

Keyscan K-VAN

Vandal resistant proximity reader

Vandal resistant 125 kHz proximity reader with Fibertex technology

Keyscan's K-VAN proximity reader is an ideal selection when planning access control into rough environments. Rely on the Keyscan K-VAN vandal resistant proximity reader, constructed of a solid stainless steel body and fibertex.

K-VAN is an ideal proximity reader for all indoor or outdoor applications where aggressive behavior, crime or high-threat environments could be expected.

Its features include:

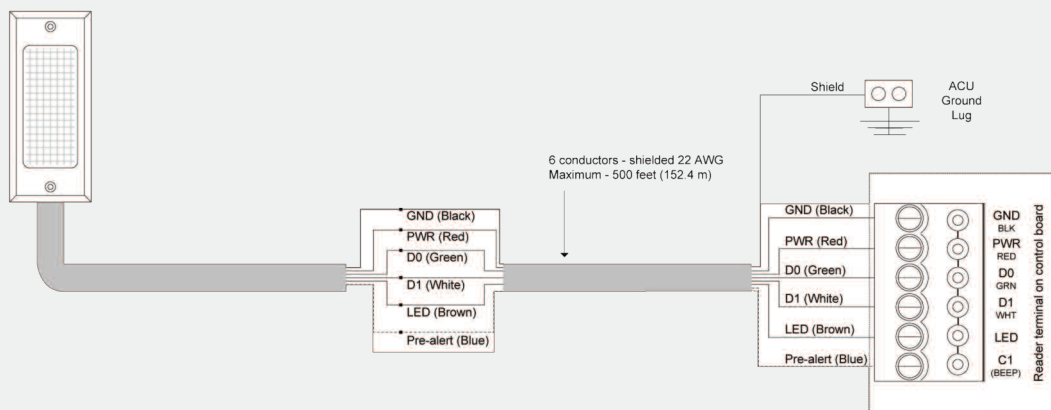

- Solid stainless steel bezel with Fibertex® insert provides the highest level of vandal resistance
- Fibertex® material is UL752 listed for bullet resistant integrity
- May be used on non-Keyscan systems with many HID 125kHz card protocols
- Pass-thru Wiegand output standard
- Suitable for outdoor applications in all weather conditions
- Provides non-contact read range of up to 25mm (1 inch)
- Limited lifetime warranty against defects in materials and workmanship

Ideal for most environments where crime and aggressive behaviours could exist

Features and Benefits:

- Stylish yet extremely robust for the toughest applications
- Uses proven digital radio frequency identification technology
- Ideal proximity reader where vandalism is a concern
- Designed for indoor and outdoor environments
- Pass-thru Wiegand output for easy integration into existing access control systems
- Mounting options include two countersunk 0.25 inch thru-holes as well as four 1/4-20 tapped holes in the back for tamper-proof blind mount installations*

Applications:

Specifications:

Size

- 5.25" x 2.0" x 0.75" (13.4cm x 5.1cm x 1.9cm)

Read Range

- Up to 1 Inch (25mm)

Input Voltage

- 12 VDC at reader

Typical Current Draw

- Nominal draw is 90 mA

Operating Temperature

- -40°C to 65°C (-40°F to 149°F)

Cable

- 6 conductor shielded 22 AWG
- 12" Pigtail standard

Indoor/Outdoor Design

- Easily installed in any location
