

# Webinar Training

## dormakaba Access Control Education Series

### **Webinar Topic:**

Keyscan Aurora Site Management

### **Course Description**

With its bold design and advanced engineering, Aurora eclipses all other access control software platforms. See what Aurora can offer: sleek navigation, intuitive user interface screens, people-centric architecture and a host of other worthwhile features.

### **Content:**

This 1-hour training course covers both Aurora's functionality and requirements to configure the software within a Keyscan Access Control System. Some of the training highlights include:

- Adding a site
- Adding hardware to a site
- Creating schedules
- Setup FPI
- Adding Holidays
- Status Screen
- Configure Active Mapping
- Site Setup Report
- System Log Report

A brief question-and-answer period will be held at the end of the seminar.

### **Who Should Attend**

This course is designed for sales personnel and service technicians who are familiar with Keyscan Access Control Systems.
