

Webinar Training

dormakaba Access Control Education Series

Webinar Topic:

Keyscan Mobile

Course Description

Keyscan Mobile Credential is a cloud-based credential delivery app for use with new or existing Keyscan access control systems equipped with K-SMART3 mobile-ready readers and Aurora software version 1.0.16 or later. The Keyscan Mobile Credential app brings security and convenience to commercial facilities secured with Keyscan access control systems. System administrators now have the option to issue secure and protected mobile credentials and authorize access to entrances, elevators, parking garage and all other exit/entry points throughout commercial buildings.

Content:

This 15-minute training course covers both Aurora's functionality and requirements to configure the software within a Keyscan Access Control System. Some of the training highlights include:

- Overview Keyscan Mobile requirements
- Overview Keyscan Mobile

A brief question-and-answer period will be held at the end of the seminar.

Who Should Attend

This course is designed for sales personnel and service technicians who are familiar with Keyscan Access Control Systems.
